

13" Stainless PowerWheel

The 13" Edson Stainless PowerWheel will make a bold statement on your flats boat, runabout or tuna tower. Its the smallest Power Wheel offered by Edson and has the same large, ergonomically contoured finger indents on the underside of the rim as its larger siblings but it is ideal for smaller boats and helm stations where space is at a premium. Includes Stainless Wheel Nut with inserts for 1/2"-20 & 5/8"-18 threads.

- 13" Stainless Wheel & Nut #1700ST-13-750T
- 13" Stainless Wheel, Nut & PowerKnob #1700ST-13-KIT (shown)

13" Bronze PowerWheel

The 13" Edson Bronze PowerWheel is sure to dress up any boat - especially a classic sportfish or wooden runabout. Solid cast bronze construction is highly polished to a mirror finish, giving a deep, rich golden glow. Includes Brass Wheel Nut with inserts for 1/2"-20 & 5/8"-18 threads.

- 13" Bronze Wheel & Nut #1700BR-13-750T

13" Black Stainless PowerWheel

The 13" Edson Black PowerWheel is cast of the same Stainless as the standard wheel, but features a baked-on mil-spec black polyurethane coating, giving it a rugged finish and classic black look. If your boat has black accents or trim, this wheel will match your helm station perfectly. Includes Black Wheel Nut with inserts for 1/2"-20 & 5/8"-18 threads.
